## DECLINES TO GRANT REQUEST OF EDWARDS

Lawton, Okla., Sept. 18.—The appeal of Frank Edwards, convicted of murder at Ada, and sentenced to hang October 20, to be buried in Temple, this county, with considerable ceremony has fallen on deaf ears.

In a letter to R. L. Spurlin of Temple, Edwards asked that all his old friends be notified and that they meet the train bringing in his body with a band and march to the cemetery "playing some marches."

Spurlin said Friday that Edwards had relatives in Ada and that there was no use in bringing the body to Temple. Edwards formerly lived in the Taylor store settlement near Temple.

## ANOTHER AVIATOR ENTERS OCEAN TO OCEAN RACE

New York, Sept. 17.—C. P. Rodgers, aviator to start on the trans-continental flight for the Hearst prize rose from the race track at Sheepshead Bay at 4:25 this afternoon, swept in a wide circle over the grounds and then headed northwest until his white-winged flyer merged into a bank of clouds over the Jersey meadows and disappeared.

He drove a Wright biplane and carried a message from Mayor Gaynor to the Mayor of San Francisco and from the commanders of the Eastern divisions of the army and navy to the commanders on the Pacific Coast. Before his start his machine was christened by Miss Amelia Swift of Memphis, Tenn.

Over Broadway at 3,000 Feet.

Flying over New York City, Rodgers crossed Broadway at 4:45 at a height of 3,000 feet and covered the

mile from that point across the river in less than a minute. He was flying as steadily as a bird while soaring over the city and evidently was not bothered by the air holes which have troubled other aviators.

At 6:07 he was reported as passing Campbell Hall Junction, sixty-six miles from the start, headed for Midtown.

The aeroplane looked almost like a toy at the starting ground, as it measured only 32 feet from tip to tip, while the aviator stands 6 feet 4 inches and weighs 192 pounds. Rodgers is confident it will land him in San Francisco without mishap.

### Wax Bullets Failed to Melt.

Trinidad, Colo., Sept. 18.—Mrs. Fredrick Roske, the "Human target," who has been thrilling vaudeville audiences here by apparently catching in her teeth bullets fired at her from across the stage, last night horrified her audience by dropping to the floor with what appeared to be an ugly wound in the head.

Examination showed, however, that she was not seriously injured as the "bullet" instead of being lead was wax, the accident revealing the secret of the "act." The wax bullets were shown to the audience and placed in the rifle, the heat of the explosion melting the "wax" and the human "target" displaying a bullet she had concealed in her mouth.

Last night one of the wax bullets failed to melt and gave the performer the fright of her life.

## TAFT TARIFF BOARD RECOMMENDS CUT

Washington, Sept. 18.—Ample justification for heavy reductions in tariff duties on wools and woollens is shown by the reports of the experts of the tariff board who have been investigating the wool and woolen industries at home and abroad, according to information that is unofficial, but probably fairly reliable, which has leaked out here regarding the character of the reports in question.

Most of the experts who have been engaged on the investigation of wools and woollens have practically completed their work and the results are now in the possession of the tariff board. The data are already being collated and co-ordinated and will be embodied in a comprehensive report which the board expects to have ready for submission to Congress when that body reassembles in December.

It is said in a general way that the

investigations of the experts have revealed conditions in the wool and woolen industries in the United States and abroad that show conclusively there is no justification for the present excessive duties imposed by the United States for the protection of American sheep raisers and woolen manufacturers.

### AUTO ACCIDENT COSTS

#### LIVES OF NINE

Syracuse, N. Y., Sept. 16.—Nine persons were killed and fourteen injured some of them seriously as the result of an accident during the closing three miles of a fifty-mile automobile race at the state fair track this afternoon when a Knox racing car driven by Los Oldfield, leaped from the track crashed through the fences surrounding it and plunged into the throngs that lined the other side of the speed way.

Six of the nine people were killed outright and three others were so badly injured they died on the way to the hospital.

### EX-SENATOR CARTER OF MON.

#### TANA DIES AT WASHINGTON

Washington, Sept. 17.—Former United States Senator Thomas Henry Carter of Montana for many years a notable and picturesque character in national politics, and once chairman of the republican national committee, died at his home early Sunday of infraction of the lungs. He was 57 years old.

## FURTHER DETAILS OF THE DEATH OF JOHN PIRTLE

Special to Daily News.

Hart, Okla.—This neighborhood was greatly shocked Thursday by the finding of the dead body of Johnnie Pirtle, the nineteen year old son of Mrs. Kittie Jackson, with a bullet wound in his head. Johnnie left home Wednesday morning on his horse "Syrock" to look for his horse that had got away from him the night before. Some time about 11 o'clock Syrock came up to Mr. Hurley's house dragging his rope. Mr. Hurley, and Mr. Poe caught the horse, and Mr. Poe took him home, and finding no one there turned the horse in the lot. Wednesday night a searching party hunted all night for Johnnie and continued their search until near noon, thinking his horse had thrown him, and either killed him or crippled him.

About noon Johnnie's uncle, Isaac Fulson discovered the body about three hundred and fifty yards southeast of his house.

He fired two shots, the signal agreed upon by the searching parties. Within a few moments, there were about fifty or more men on the ground. On the account of its being quite a distance to the nearest justice of the peace, and owing to the condition of the body, the people selected ten reliable men to make an examination of the body. They found that he died from the effects of a bullet wound which entered his head at the top of his ear. His revolver was lying near his feet, with one cartridge exploded.

Johnnie was well liked by every one and was an especial favorite of all the young people, and the tragedy has cast a deep gloom over the entire neighborhood.

All the neighborhood feels deeply for Mrs. Jackson, Johnnie was her only child.

The body was laid away in the Hart cemetery Friday at three o'clock by the Woodmen of the World.

## COURT TAKES UP

### JURY DOCKET

The jury docket of the civil term of district court was taken up this morning. The personal injury suit of R. M. Brown vs. Oklahoma Portland Cement Co. was called and a jury empaneled to try it. The case has occupied the attention of the court the entire day and is being stubbornly fought.

Brown was injured February, 1908, and seeks to recover damages to the amount of \$5,000.

## WILSON THE FAVORITE WITH ADA VOTERS

### STRAW VOTE TAKEN BY NEWS REPORTER GIVES HIM LEAD OVER CLARK AND HARMON.

Having a curiosity to know just how the sentiment among the democrats of this section is in regard to the presidential race of 1912, the reporter of the News made a round today and interviewed every democrat he met. A number declared they had not yet made up their minds, and those who had were very much divided. The Wilson men seem to be in the majority, thirty-three expressing a preference for him.

Champ Clark is a close second with twenty-three favoring him as the nominee of the party. A number who voted for one or the other of his opponents stated that while they really favored Clark, they thought one or the other candidates stood a better chance of election.

Judson Harmon also has some warm admirers, and seventeen democrats favored his nomination. No others mentioned in connection with the nomination received a vote.

All democrats are most enthusiastic in the belief that 1912 offers the finest opportunity for victory in a generation, and the only anxiety is to select a man who can command the most votes.

### "Pussyfoot" Johnson Resigns.

Washington, Sept. 18.—William E. Johnson of New York, the chief suppressor of the illicit liquor traffic among the reservation Indians of the United States, who led a rather strenuous career in Indian Territory just prior to Oklahoma's admission as a state, the mention of whose name struck terror to the hearts of the bootleggers, has tendered his resignation to Acting Secretary of the Interior Adams, effective Oct. 1. H. F. Coggeshall of New York, Johnson's chief deputy, has been named as his successor. Johnson, who is known in Oklahoma as "Pussyfoot" has operated in all parts of the world.

L. A. Sanders Jr., left for Wynnewood this morning to help his brother get ready to move to Ada.

## TWO BOYS CHARGED WITH BURGLARY

Two 16-year-old boys, Tillman Dye and Chester Hagans were brought in from Durant yesterday and lodged in jail on a charge of burglarizing a store at Roff one night last week. It is understood that they will enter a plea of guilty and accept immediate sentence.

It is said that the boys carried off three suit cases filled with clothing. When located at Durant they were still in possession of practically all the goods they had made way with.

## MCALISTER PARDONS FORSHEE BROTHERS

Oklahoma City, Sept. 18.—A double pardon was issued to John and Jonas Forshee of Ardmore, on Saturday night by Acting Governor J. J. McAlester. The two men were convicted of murder and manslaughter, respectively, for the killing of the 14-year-old son of Sidney Ford in Ardmore in the fall of 1907, and the first was sentenced for life while his brother only drew ten years. A delegation was here from Ardmore asking for the pardon, headed by State Senator Harry Allen of Carter county.

The killing, for which the two Forshee boys were convicted and sen-

tenced, came across Ballew and an exciting battle took place. Ballew fell riddled by a hundred shots, but recovered to appear as a witness against the aggressors, who were tried and convicted for the death of the young lad who was hit by a stray bullet.

The case was one of the hardest fought legal battles in the history of Carter county, but public sentiment seemed to be against the Forshees and they were given long sentences. John Forshee, who apparently fired the fatal shot, was given a life term, while his brother received ten years for manslaughter. But inasmuch as the killing was entirely accidental and the apparent proving just last week that Ballew was indeed a dangerous man, for there seems to be no doubt but that Mathers shot him in defense of his life, a number of Ardmore's citizens thought that the Forshees had been punished sufficiently and united in requesting Governor McAlester to pardon them.

Mr. Hochstrasser, the grape king  
of Francis, finds himself suddenly fa-  
mous. The Wigwam first printed the  
story of his wonderful success in  
raising grapes, the Ada News copied  
the item, and now every paper in  
the state has followed suit. His ex-  
ample will probably be followed all  
over the state since he has demon-  
strated what can be done in that line.  
Anyway, Mr. Hochstrasser is a power-  
ful exponent of diversification.

According to the Blanchard Record  
lightning struck the court house at  
Purcell, headed straight for the booze  
room and destroyed several gallons  
of Chictaw beer. Even Oklahoma  
lightning is getting onto the ways of  
locating booze.

President Taft declares himself in  
favor of farm life. Most other politi-  
cians are also favorable to the idea—  
for the other fellow, of course, not  
for themselves.

A reader of the News with an in-  
quiring turn of mind dropped around  
the other day asking what a native  
of Maine would be called. He was fa-  
miliar with Oklahomans, New Yorkers  
Arkansawyers, etc., but was stumped  
on Maine. Perhaps it might be prop-  
er to call a native of the Pine Tree  
state a Maniac, but we cannot say  
for sure. Passed up to our exchanges.

**THE CASE OF DR. WILEY.**  
As long as they kept their mouths  
shut Secretary Wilson and the gang  
who nullified the pure food laws of  
the United States succeeded in their  
undertaking very well, but becoming  
bold they decided to try to throw Dr.  
Wiley, the implacable foe to the in-  
terests that fattened on the profits  
made by selling embalmed foods to  
the poor classes, overboard. Right  
there they made the mistake of their  
lives. The people had been saying  
little and the interests thought they  
were lulled into indifference, but  
when the discharge of Wiley was rec-  
ommended a howl was heard that  
penetrated even to the farthest rec-  
cesses of the White House. Congress  
took up the matter and soon had the  
food poisoners on the grid iron and  
cooked them to a queen's taste. Fi-  
nally President Taft himself, instead  
of firing Wiley, as recommended by  
Wilson and Wickersham, plant tools  
of health and broadly hinted trouble  
for his enemies in the near future.  
No matter what his personal inclina-  
tions might have been, Taft could not  
afford to make a campaign issue of  
Wiley. It was much better to exon-

erate him and sacrifice a few of his  
detractors. However, no matter what  
his motives were, his action will meet  
the hearty approval of the general  
public, whose champion Wiley has  
been so long. The people have few  
enough friends in the high places of  
government, and will cling to one  
whose sincerity is admitted even by  
his enemies. The result of the whole  
affair will likely be a revival of the  
pure food laws which had been nulli-  
fied by Wilson and the bunch of com-  
mercial pirates who have been trying  
to crush Wiley.

The News hopes to see the council  
at its meeting this evening pass an  
ordinance ordering the Katy to open  
10th street across its tracks and right  
of way. The council has already de-  
clared in favor of such ordinance and  
now the matter should be fought out  
to the bitter end. The several hun-  
dred citizens on the east side are en-  
titled to this concession, for at pres-  
ent they are put to considerable in-  
convenience in getting to town. Prop-  
erty in that section would be worth  
considerably more if the street was  
opened.

Gov. McAlester seems to be making  
a record in the matter of pardons and  
paroles issued while acting chief  
executive.

#### IMPORTS OF COTTON IN- TO THE UNITED STATES

It seems strange to see the great-  
est cotton producing country of the  
world bringing raw cotton half way  
around the globe and importing it  
for use in her own manufacturing in-  
dustries. It is nevertheless a fact  
that the United States, which pro-  
duces practically two-thirds of the  
world's cotton, brought from China  
during the last fiscal year (1911)  
more than 9 million pounds of raw  
cotton, at a cost in that country of  
more than 1 million dollars and from  
India in 1910 about 5 1-2 million lbs.,  
at a valuation of more than a half  
million dollars. Other distant sec-  
tions of the world were also drawn  
upon—Peru, 4 3-4 million pounds in  
1911; Dutch East Indies, in 1909,  
nearly a half million pounds. Haiti in  
1911, nearly half a million pounds,  
while other contributors include  
Venezuela, Ecuador, British West In-  
dies, Santo Domingo, Mexico, Pana-  
ma, Nicaragua and Costa Rica, while  
from Egypt, the chief source of sup-  
ply of long stapled, high grade cot-  
ton, the imports in 1911 were larg-  
er than in any earlier year, amounting  
to 88 million pounds. In addition to  
this there was imported from Eng-  
land about 7 1-2 million pounds, pre-  
sumably chiefly East Indian. Egypt-  
ian and West African, since England,  
of course, produces no cotton. Raw  
cotton importations in 1911 were larg-  
er than in any earlier year, amounting  
to 13,768,313 pounds valued at  
\$24,776,320.

High prices of domestic cotton are  
the cause of the large increase in  
importation of cotton, especially that  
from China and India. The quantity  
of cotton imported from China never  
reached a quarter of a million pounds  
prior to 1908, and in 1909 was practi-  
cally 1 1-2 million pounds, in 1910  
4 1-2 million and in 1911, 9 million

pounds. From India the quantity im-  
ported seldom reached a half million  
pounds prior to 1908, in which year  
the total was over three-quarters of

a million pounds; in 1910, 5 1-2 mil-  
lions and in 1911, 2 1-2 millions. The  
Chinese and Indian cottons are as a  
rule of shorter staple than that of  
the United States, and as a conse-  
quence are rated at a somewhat lower  
price in the world's markets, a  
fact which accounts for the large  
growth in the importation of these  
cottons in the recent years in which  
American cotton has commanded ex-  
ceptionally high prices. On the other  
hand, Egyptian cotton which is of  
longer staple, higher quality, and  
therefore higher in price than that  
of the United States, still forms a  
large proportion of the imports, the  
quantity imported direct from Egypt  
in 1911 being 88 million pounds out  
of a total of 114 million pounds im-  
ported in that year, and its value  
20 1-2 million dollars, out of the 24  
million dollars worth of cotton im-  
ported.

Cotton importation has shown a  
steady if not rapid growth, especially  
during the last 20 years. Prior to the  
Civil War the quantity imported sel-  
dom reached more than 1 million  
pounds per annum. During the war  
the quantity imported was quite large  
ranging as high as 36 million pounds  
in 1865, but dropping to 6 million  
pounds in 1866 and less than 1 mil-  
lion pounds in 1867. By 1870 the  
total importation of cotton was 1 2-3  
million pounds; in 1880, 3 1-2 mil-  
lions; in 1890, 8 1-2 millions; in  
1900, 67 millions; in 1910, 86 mil-  
lions and in 1911, 113 3-4 million  
pounds.

A "feature," or department, of a newspaper wins  
its readers a few at a time.

Out of thousands who "scan" and "glance  
at" a store's advertising in this issue, a few  
hundred will read ALL OF THAT STORE'S ADVER-  
TISEMENT IN THE NEXT ISSUE. But, if that  
store's advertising does not APPEAR IN THE  
NEXT ISSUE, this process of winning regular  
readers is broken up.

It would be so with our Editorial Page. If it  
did not appear REGULARLY, it would forfeit the  
interest and attention of MOST OF ITS READ-  
ERS. And the same would be true of our Local  
Page, and of other feature of the paper, which  
build up their circles of readers surely and stead-

A store's advertising gets to be MOST EF-

# MAJESTIC THEATRE

High-Class Pictures--Nothing  
But The Best

**TO-NIGHT**  
EDISON'S SOCIETY DRAMA

## "HIS MISJUDGMENT"

The story told in this truly remarkable picture is intensely dramatic. A young man having failed in business, his beautiful wife, in order to recoup his fortunes, goes on the stage, unknown to him. False friends misconstrue her motive to her husband, which causes him to doubt her honor. It has many strange situations and a thrilling fire scene. Thos. A. Edison's latest and best production.

## "The Gaul's Honor"

A romantic Drama of the days of the Romans--magnificently staged and costumed.

## "ON THE FRONTIER OF THIBET"

A Picture showing customs and habits of that strange country. Also  
**Its Famous Dancing Girls**  
EDUCATIONAL.

**ADMISSION AS USUAL**

A. T. Trimm who lives near the brick yard, informs the News that, by 2 o'clock a Saturday he had counted fifty-two bales of cotton passing his house en route to Ada. It is probable that more cotton comes in on that road than any other, for the receipts Saturday were 148 bales.

# Baby's Voice

Every woman's heart thrills at the cooing and prattling of a baby, and motherhood is her highest and purest joy. Yet the suffering incident to this great consummation of her life's desire, robs the anticipation of some of its sweetness. Most of this can be avoided by the use of Mother's Friend. This great remedy prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. Mother's Friend assists nature in gradually expanding all tissues, muscles and tendons, it strengthens the ligaments, keeps the breasts in good condition, and brings the woman to the crisis in healthful physical condition. The regular use of Mother's Friend lessens the pain when baby comes, and assures a quick and natural recovery for the mother. For sale at drug stores. Write for free book for expectant mothers.

## DR. WILEY UPHOLD BY PRESIDENT TAFT

Beverly, Mass., Sept. 16.—The resignation of Dr. Harvey W. Wiley, chief of the bureau of chemistry in the department of agriculture and probably the best known pure food expert in the government service, will not be asked for by President Taft despite recommendations that it be requested made by the personnel board of the department and endorsed by Attorney-General Wickersham. The "condign punishment" for Dr. Wiley which Mr. Wickersham held to be necessary will not be meted out by the chief executive. The president's opinion, carrying no word of criticism for Dr. Wiley, but many a word of praise, was made public here today.

There is no indication in it that the president feels that he "turned down" Mr. Wickersham by not accepting his recommendations. He explains that the attorney-general's findings in the case were made with less complete data than was before him when he took it up. In the opinion the president admits what has been well known to many persons close to the administration, that there is trouble in the department of agriculture.

### Rapid Rise of an Oklahoman.

Tulsa, Oklahoma, Sept. 18.—From a "trapper" boy in an early day Indian country coal mine at \$1.50 a week, to legal advisor of one of the wealthiest Indian tribes in America at a salary of \$6,000 a year and all personal and traveling expenses, is the remarkable success of Patrick J. Hurley, "white Indian" of the Choctaw Nation, who this week signed the contract with Choctaw chiefs, Victor M. Locke, Jr., to represent his tribe in all legal and court matters.

Hurley, who is but 28 years old and is president of the Tulsa County Bar association, is a white man, the son of a frontier day cattle man, who immigrated into the Red River country of the Choctaw nation more than thirty years ago. He was born among the Choctaws, was raised and educated with them, and having unusual talent and business sagacity, was always worshipped by the Indians of the tribe who called him their "big white Indian."

At the age of 11 years, Hurley was left motherless and entered the coal mines for a livelihood. After following a mule and 'trapping' in the mine for three years, he spent two years in the saddle, "punching" cattle over the Red River ranges. Hurley was ambitious even at this young age, and the height of his ambition was to become an attorney. So at the age of 16 years he worked his way through the Bacon Indian University at Muskogee, doing chores around the school for his board and tuition.

After that Hurley spent two years as clerk in the Indian Agent's office at Muskogee, and then took a course in the National Law School at Washington, and came to Tulsa to practice law. He never forgot his Indian chums of boyhood days, and even now spends much time in the Choctaw country where he has many clients among the Indians.

Last February, when Victor M. Locke Jr., was appointed chief of the Choctaw nation, following the death of Chief Greene McCurtain, it was deemed necessary to change attorneys for the tribe and it fell on the new chief to make the appointment.

It was not a hard matter for Chief "Dick" Locke to make his selection. Pat Hurley, the Tulsa lawyer was his playmate from infancy, his college chum and the universal choice of his tribesmen. He knew of the success of the self-made son of the pioneer cattleman, and knew that he was ambitious and deserving. Hence it was that Hurley secured his appointment to represent the Choctaws at Washington, in the court of claims, supreme court of the United States and congress. The contracts between Hurley and Choctaws was signed this week, and it only awaits the signature of President Taft when he returns to Washington, to make it effective.

The attraction at the opera house on Wednesday, Sept. 20, will be "Tempest and Sunshine" a dramatization of Mary J. Holmes' thrilling novel, by Lem B. Parker. The story centers around two sisters who are called "Tempest and Sunshine" on account of their dispositions. The supporting company is composed of artists of acknowledged merit and the scenic and mechanical effects are novel and realistic.

time defended 1,000 people charged with murder. Not a single one of these defendants was ever hanged, is one of the proud boasts of Marcum. The most of them have been acquitted, released in various ways, and pardoned. Only one is now serving out a life sentence.

The old lawyer keeps a diary and a record of each case.

As a result of a runaway this morning, Frank Jones is nursing a badly sprained arm. As he was driving down the hill near Henry Young's place east of town, a shaft fell down, frightening the horse, which bolted. Finally the animal tore loose, and as he did so, threw Mr. Jones out with the above named result.
